## **Medical Facilities**

Cardinal Hill Rehabilitation Hospital  
Lexington, KY

Night visits only

Contacts: Troy Stansell at [tstansellk9@yahoo.com](mailto:tstansellk9@yahoo.com)  
Cindy Barker at [bella1004@bellsouth.net](mailto:bella1004@bellsouth.net)

CHH expects all handlers and their K-9s to abide by the following rules while visiting the CHH facility.

- 1) All dogs that visit **MUST** be PUPT certified, insured, and have met their ten supervised visits before attending a visit at CHH.
  - A) Copies of therapy certification and vaccinations must be on file at CHH.
- 2) Handlers must attend one (1) visit with a mentor prior to bring their therapy certified dog.
- 3) There is a mandatory meet and greet (sniffing of tails) fifteen (15) minutes prior to entering the hospital. If you do not attend this meet and greet, you will be requested to LEAVE and will not be able to attend the visit.
- 4) There will be **NO** feeding of dogs at CHH except for the occasional treat for reward for the K9.
- 5) While in CHH K-9s are not allowed in patient rooms. Rare exceptions will be made by CHH. This is a request by CHH.
- 6) Visits will take place in the conservatory or as dictated by CHH.
- 7) Handlers and K-9s are not to wonder the halls except with the permission of CHH and unit coordinators. This is a request by CHH.
- 8) One K-9 per handler. CHH may elect to let a handler bring two K-9s.
- 9) If the K-9 gets nervous, scared, or if a dominance issue arises with a dog, the handler is to separate/remove the K-9 from the activities and CHH premises immediately.
- 10) Having fun, brightening up days, and safety for patients and staff at CHH is a priority.
- 11) Only four teams may attend on any given visit with a maximum of 5 dogs per visit.

### **A few things to keep in mind**

1) " We just drive the dogs around; they are the ones that do the work." We are in the background and the dogs do the work. 2) These people are patients and they are sick. So **CALM** environments is what we must provide. NO excitement!!!!!! 3) We have to remain aware of the patient's health. Dogs must not lick on wounds, tracheotomy (hole in neck so the patient can breathe), stomas, IV sites, etc..... There will be broken arms, legs, necks, backs, skulls, brain injuries, infectious diseases, etc. and we must consider these things at all times. 4) The dogs are to relieve the patients of stress, not cause stress. 5) We (handlers and dogs) are guests of CHH, so be courteous and respectful of patients and staff.

Revised 04-03-2009
